## OVERVIEW

Tech Army is a technology consulting firm delivering AI-enabled automation and custom IT solutions that improve operational efficiency and reduce costs. We support Federal, State and Local Government, Education, Healthcare, Utilities, Engineering, Retail, and Legal sectors through modernization of legacy systems and business process improvement.

Our team has decades of experience in IT consulting and enterprise systems delivery. We design secure, platform-agnostic solutions aligned to client requirements and apply AI, automation, and software engineering to streamline workflows, reduce manual effort, and improve service delivery outcomes.

## DIFFERENTIATORS

- 30+ years of combined experience delivering IT systems and enterprise technology solutions across government and commercial environments.
- Dedicated account support model with defined points of contact, 24/7 availability, and continuous client coordination.
- Certified small business: SBA 8(a), CBE, SBE, EBE, and IWS CyberReady.
- Internal automation and process optimization practices that reduce delivery costs and improve operational efficiency.
- Federal performance experience including a $20M IDIQ with Los Alamos National Laboratory and a Basic Ordering Agreement (BOA) with Savannah River Nuclear Solutions.
- Access to a national resource network (RCRMS) providing 1.5M+ cleared and technical professionals.
- Experience executing complex, multi-stakeholder projects in regulated and mission-critical environments.
- Tech Army is a NASA SEWP VI Category C Prime Awardee and Category B Subcontractor, supporting federal agencies through a government-wide procurement vehicle for technology products, services, and solutions.

## CORE COMPETENCIES

### Software Engineering

- Full-stack development (Java, Python, .NET, Node.js, React, Angular, Vue.js)
- Scientific computing (FORTRAN, MATLAB, R, Julia)
- High-performance computing (HPC) and AI/ML solutions
- Web and mobile application development
- Cloud-native applications (AWS, Azure, GCP, DOE cloud environments)

### Data & Enterprise Architecture

- Microservices architecture and API development
- Data engineering (Hadoop, Apache Spark, PostgreSQL, MongoDB, NoSQL)
- Business intelligence and analytics (Power BI, Tableau, Qlik)
- DevSecOps and CI/CD pipeline implementation
- Enterprise architecture and systems integration

### Enterprise Systems

- ERP systems (SAP ECC, S/4HANA, Oracle EBS, PeopleSoft, Workday, Microsoft Dynamics)
- Government financial systems (DCAA, FAR, DFARS compliance)

### Cybersecurity & Infrastructure

- Zero Trust Architecture (ZTA) implementation
- Secure SD-WAN, hybrid cloud networking, and edge computing
- Security frameworks (NIST 800-171, FISMA, FedRAMP)
- Cybersecurity and threat intelligence solutions
- Identity and access management (IAM) and multi-factor authentication

## NAICS CODES

- **541511**: Custom Computer Programming Services
- **541512**: Computer Systems Design Services
- **541513**: Computer Facilities Management Services
- **541519**: Other Computer Related Services
- **561320**: Temporary Help Services
- **611420**: Computer Training
- **541611**: Administrative Management & General Management Consulting Services
- **561312**: Executive Search Services

## CERTIFICATIONS

SBA 8(a) Certified · ISO 9001:2015 · DOE "Q" CLEARANCE · CyberReady MBE Certificate of Completion · CBE Certified Business Enterprise Program · SBE Certified Enterprise · EBE Certified Enterprise · NASA SEWP VI Contract Holder · FACILITY CLEARANCE (FCL) · FOCI FOREIGN OWNERSHIP, CONTROL OR INFLUENCE

## SELECTED FEDERAL CLIENTS

Los Alamos National Laboratory · Fermilab · FLUOR · Savannah River Nuclear Solutions · INL Idaho National Laboratory · Argonne National Laboratory

## DEVELOPER EFFICIENCY WORKBENCH

Proprietary AI automation platform (patent pending) supporting software development and delivery.

DEW enables application development through automated code generation and visual workflow (drag-and-drop) capabilities. It integrates business analysis, software development, and project coordination to support collaborative delivery of client solutions.
