Overview

www.techarmy.com

Tech Army is a firm dedicated to cost savings by utilizing AI and automation internally, and for our clients. We provide custom IT business solutions and consulting services to address our clients' intricate business challenges using AI and process automation in various industry sectors such as Federal government agencies, State and Local Governments, Utilities, K-12 and Higher Education, Healthcare, Engineering, Retail, Legal and more.

Our leadership team's decades of IT industry experiences allow us to develop platform-agnostic, secure, scalable, and easy-to-use solutions to meet our clients' needs. We believe that attentive listening to and understanding of our client's challenges is the very first step in devising such best-fit solutions. We then utilize state-of-the-art, smart technologies, coupled with a good design, reducing complexity, to ultimately lead us to mission success.
